ORDINANCE

1045-2026

WHEREAS, the City of Helena finds that the increasing use of electric bicycles ("e-bikes") on public streets, sidewalks, trails, and other public ways presents important public safety considerations for pedestrians, motorists, and riders, including concerns related to speed, interaction with non-motorized traffic, and operation in congested areas; and

WHEREAS, the City of Helena further finds that reasonable regulations governing the operation of e-bikes are necessary to promote the health, safety, and welfare of the public, to reduce the risk of collisions and injuries, and to ensure the safe and orderly use of public rights-of-way and public property; and

WHEREAS, the City of Helena is a Alabama Class 8 municipality vested with the power and authority to enact ordinances and regulations to protect the public peace, health, safety, and welfare, and to regulate the use of streets, sidewalks, and other public places, pursuant to the City's police powers and all other applicable constitutional, statutory, and charter authority; and

WHEREAS, the City Council desires to establish clear, enforceable standards for e-bike operation within the City to enhance public safety and provide guidance to riders and enforcement personnel;

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Helena, Alabama as follows:

DRAFT

Section 1. Definitions:

Operate: to ride, and/or otherwise control a bicycle, micromobility, or electric motorcycle device other than walking along with such device.

Sidewalk: (1) the portion of the public right-of-way between the curb line of any street, road, highway, bicycle lane, or other thoroughfare designed for vehicular travel and the adjacent property line, (2) any other paved path or walkway, which is intended for pedestrian travel, whether publicly or privately owned and/or maintained

Multi-use Path: a pathway within the corporate limits of the city that has been designated by the city council as appropriate for multi-use, such as the Hillsboro Trail and Buck Creek Trail

Bicycle: a vehicle composed of two wheels held in a frame propelled by pedals moved by human force alone and steered with handlebars.

Electric Bicycle: a bicycle equipped with fully operable pedals, a saddle or seat for the rider, and an electric motor of less than 750 watts, classified under Ala.Code § 32-5A-267, that meets the requirements of one of the following three classes:

a. **Class I** electric bicycle means an electric bicycle equipped with a motor that provides assistance only when the rider is pedaling and that ceases to provide assistance when the bicycle reaches the speed of 20 miles per hour.

b. **Class 2** electric bicycle means an electric bicycle equipped with a motor that may be used exclusively to propel the bicycle and that ceases to provide assistance when the bicycle reaches the speed of 20 miles per hour.

c. **Class 3** electric bicycle means an electric bicycle equipped with a motor that provides assistance only when the rider is pedaling and that ceases to provide assistance when the bicycle reaches the speed of 28 miles per hour.

Electric Motorcycle: any motorcycle powered by an electric motor of 750 watts or more that is capable of a speed greater than 28 miles per hour. These are commonly referred to as "E-Moto."

Electric Personal Assistive Mobility Device: an electric-driven self-balanced vehicle. Some commonly known examples are Segway, Hoverboard, and electric skateboards.

Motorized Scooter: a two-wheeled electric or gas scooter with handlebars and a seat or rectangular platform on which the rider stands

Micromobility Device: an electric bicycle, electric personal assistive mobility device, scooter, or any other similar electrically powered mobility device.

Vehicle Identification Number (VIN): a unique code or serial number that is assigned to vehicles and recognized by the National Highway Traffic Safety Administration. VINs are used by local, state, and federal governments and the automotive industry to identify individual vehicles.

Section 2. Vehicles assigned a VIN

Any person operating a vehicle that is assigned a VIN shall at all times conform to all applicable laws pertaining to the operation of said vehicle. This includes but is not limited to: driver's license possession, license plate or tag possession, and possession of liability insurance.

This provision does not include the operation of golf carts that have been inspected and permitted by the City of Helena under ordinance 908-2022.

Section 3. Unlawful operation of electric motorcycles.

(a) **Locations:** It shall be unlawful to operate electric motorcycles on any sidewalk, multi-use path, trail, pedestrian lane or bicycle lane, park, or any other public or private property which is held open to the public for pedestrian travel.

(1) The operation of electric motorcycles shall be restricted to public roadways and to private property which is not held open to the public for pedestrian travel

(b) **Operations:** It shall be unlawful and a violation of this ordinance for any person to operate or for any adult to allow a juvenile under their care to operate an electric motorcycle in an unsafe manner on any street, road, highway, sidewalk, bike path, bike lane, trail, park, or upon any private property which is held open to the public for pedestrian travel. Operating an electric motorcycle in an unsafe manner includes any one or more of the following:

(1) Violating any provision of the City of Helena Municipal Code, Alabama Rules of the Road, or other law or regulation applicable to the use or operation of any electric motorcycle.

(2) On any street, road, highway, or bicycle lane against the direction of traffic.

(3) Operating upon any public drainage facility, culvert, ditch, or channel.

(4) Operating other than in the manner in which the electric motorcycle device was designed, including carrying more than one passenger or carrying passengers in a manner other than as

designed.

(5) Operating at a speed greater than the posted speed limit on any street, road, or highway.

(6) Operating while hitched to or physically attached to any moving vehicle or motorized device or bicycle.

(7) Operating while allowing another person who is not a passenger to either cling to or to be physically attached to the electric motorcycle.

(8) Failing to yield the right-of-way to any and all pedestrians.

(9) Operating while failing to obey any posted signs regulating operation, including speed limit signs or signs prohibiting or limiting operation in specific areas.

(10) A person under the age of 16 operating without a properly fitted and fastened helmet, including a passenger under the age of 16.

(c) Operators of electric motorcycles shall conform to the City of Helena Municipal Code, Alabama Rules of the Road, and other law or regulation applicable to the use or operation of motor vehicles. This includes but is not limited to: driver's license possession, age restrictions for operation, adherence to speed limits, the use of safety equipment, possession of registration and liability insurance, and careless operation.

Section 4. Unlawful operation of micromobility devices and bicycles.

(a) **Locations & Speed Limits:**

(1) The City Council of Helena designates the speed limits for bicycles and micromobility devices on multi-use paths at fifteen (10) miles per hour.

(2) The City Council of Helena designates the speed limits for bicycles and micromobility devices on all portions of the non-paved trail at twelve (10) miles per hour.

The Mayor is authorized to cause signs and/or markings to be placed giving notice of such speed limits or prohibitions as necessary to implement the regulations established by Subsection(s) (a1) and (a2) above.

(b) **Operation:**

It shall be unlawful and a violation of this ordinance for any person to operate or for any adult to allow a juvenile under their care to operate a bicycle or micromobility device in an unsafe manner on any street, road, highway, sidewalk, bike path, bike lane, trail, park, or upon any

private property which is held open to the public for pedestrian travel. Operating a bicycle or micromobility device in an unsafe manner includes any one or more of the following:

(1) Violating any provision of the City of Helena Municipal Code, Alabama Rules of the Road, or other law or regulation applicable to the use or operation of any mobility device.

(2) Operating on any street, road, highway, or bicycle lane against the direction of traffic.

(3) Operating upon any public drainage facility, culvert, ditch, or channel.

(4) Operating other than in the manner in which the bicycle or micromobility device was designed, including carrying more than one passenger or carrying passengers on the bicycle or micromobility device in a manner other than as designed.

(5) Operating at a speed greater than the posted speed limit on any street, road, or highway, or any posted speed limit on any bicycle path, bicycle lane, trail, or designated multi-use path.

(6) Operating while hitched to or physically attached to any moving vehicle or motorized device or bicycle.

(7) Operating while allowing another person who is not a passenger to either cling to or to be physically attached to the bicycle or micromobility device.

(8) Failing to yield the right-of-way to any and all pedestrians or failing to yield the right-of-way to vehicles that are entering or exiting side streets, public and private entrances and exits, and driveways.

(9) Passing a pedestrian or other operator without first either activating a bell, horn, whistle, or similar device or audibly warning such pedestrian or cyclist of the intention to pass by calling out "passing on your left (or right)" sufficiently in advance of passing.

(10) Operating while failing to obey any posted signs regulating operation, including speed limit signs or signs prohibiting or limiting operation in specific areas.

(11) A person under the age of 16 operating without a properly fitted and fastened helmet, including a passenger under the age of 16.

(12) While operating on sidewalks and multi-use paths, failing to

slow to 10 mph or less when passing head-on or passing from behind any pedestrian, vehicle, golf cart, or micromobility device.

(13) Failing to slow to 10 mph or less when operating within 50 feet of any pedestrians.

Section 5. Alteration of Devices

It shall be unlawful and a violation of this article to tamper with or modify a micromobility device or electric motorcycle so as to change the speed capability of the device, or otherwise alter, modify, or adjust the motor settings to increase the speed capability of the device, unless the required label indicating the classification is appropriately replaced. Altered devices shall be classified in the category representing the resulting motor and speed capability of the device for purposes of enforcement of this article.

Section 6. Administration and Penalties

The city's police chief or designee shall be responsible for the administration and enforcement of this article.

The police chief shall have authority to adopt policies and procedures to administer this article consistent with the purpose and intent of this article.

Any person convicted of a violation of this article shall be not fined more than $500.00 and or imprisoned not more than 30 days.

That all ordinances or parts in conflict with this ordinance, to the extent of such conflict, are repealed; and

That this Ordinance shall become effective immediately upon its adoption and publication as required by law.

DRAFT

ORDINANCE NO. 1044-2026

AN ORDINANCE ESTABLISHING A ROLLING RESERVE FUND POLICY FOR THE CITY OF HELENA, ALABAMA

WHEREAS, pursuant to Title 11, Chapter 43 of the Code of Alabama 1975, the Helena City Council is vested with the exclusive authority to manage municipal finances, appropriate public funds, and oversee the execution of the City's annual operating budget; and

WHEREAS, the Helena City Council seeks to maintain stringent internal fiscal controls, safeguard taxpayer funds, and establish explicit guidelines regarding the assignment of general fund revenue that remains in the budget as of September 1st being transferred to the reserve fund; and

WHEREAS, the intent of this ordinance is to prepare the City of Helena for economic downturns/hardship, natural disasters and/or public safety emergencies, and reduce the likelihood of unilateral decisions that may be adverse to the overall financial health of the City of Helena.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HELENA, ALABAMA, AS FOLLOWS:

Section 1. Purpose & Authority

Pursuant to the laws of the State of Alabama and the powers vested in the governing body, this ordinance establishes a formal policy to assign 1/3 (one third) **of the unencumbered general fund revenue** that remains in the budget (**as of September 1st**) shall be transferred to the **Rolling Reserve Fund**. The reserve fund can assist the City of Helena by setting aside revenue annually in preparation for economic downturns or unanticipated emergencies that are essential to the overall health and safety of our citizens.

Section 2. Definitions and Targeted Reserve Fund Level

- **Unencumbered General Fund Balance:** Funds that are neither restricted, encumbered nor expended remaining legally available for any municipal purpose.
- **Targeted Reserve Fund Level:** The City of Helena shall strive to build its reserve fund balance equivalent to a minimum of twenty percentage (**20%**) of the annual general fund budget.

Section 3. Reserve Fund Authorization and Use

- **Authorized Expenditure of Funds:** Any expenditure of funds that is considered as authorized, shall appear on the published agenda and be approved by the governing body in a regularly scheduled city council meeting.
- **Prohibition on Long Term Use for Operating Expenses:** Under no circumstances shall revenue from the reserve fund be transferred to the general fund or used to permanently fund annual, recurring expenses of the City of Helena.

Section 4. Reserve Fund Protection Plan

If economic hardship or a downturn in the economy negatively impacts the general fund revenue balance and the balance falls below 20%, the City of Helena must implement a reserve fund protection plan.

- **Timeline:** The Helena City Council and Finance Department shall develop and pass a formal stabilization strategy to replenish the reserve fund within **three (3) consecutive fiscal years**.
- **Fiscal Discipline:** Replenishment of the reserve fund shall be prioritized during subsequent budget preparation/review using all revenue sources (i.e., fees, fines, grants, taxes, etc.,) in the current or previous fiscal year's budget.

Section 5. Oversight & Periodic Reporting

- **Annual Audit Alignment:** The compliance parameters of this reserve fund ordinance will be assessed and measured every fiscal year by the City of Helena's independent external auditor.
- **Financial Disclosures:** The Finance Department/City Clerk shall deliver an official report detailing the ratio of the unassigned fund balance to total operational outlays during the formal introduction of the annual city operating budget.

Section 6. Severability and Adoption

If any segment, phrase, or clause of this ordinance is ruled invalid or unconstitutional by a court of competent jurisdiction, that judgment shall not impair the validity of the remaining provisions.

CITY OF HELENA, ALABAMA

The foregoing ordinance was duly adopted by the City Council of the City of Helena, Alabama, on the ____ day of _____, 2026.

UTILITY

February 25, 2026

To: Helena Alabama Police Department

Re: Sole Source Letter for Utility Associates, Inc. Integrated System

Utility Associates, Inc. ("Utility") is the only entity that designs and offers a fully integrated software and hardware solution that includes a Body Worn Camera ("BWC"), In-Car Video ("ICV") and mobile router communications hardware components that incorporate Automatic Vehicle Location ("AVL") and Geographic Information System ("GIS") functional enhancements. The BWC component, named BODYWORN®, the ICV and mobile router communications hardware, named CONNECT, and the software platform that CONNECTs and integrates these hardware devices, named Coreforce DEMS, collectively comprise the system Utility offers.

In order to acquire the use of all the products and services identified above, agencies normally engage up to four separate vendors. In contrast, Utility offers a single system that incorporates and includes these products and services in one, complete package. It is the only system of its kind on the market and there are no comparable market alternatives that meet the specifications set forth herein. Accordingly, the system has met the criteria set by most nationwide law enforcement agencies for a sole source procurement methodology.

Each of the three components of the system includes unique capabilities detailed below.

CONNECT offers the following unique capabilities:

- CJIS compliant video evidence vault secured within the vehicle that collects and stores digital evidence captured by the ICV component of the CONNECT and BODYWORN® in real time.
- Automatic, secure data offload from the video evidence vault to a CJIS compliant GovCloud space for future use and reference while tracking and protecting the chain of custody.
- Automated policy-based ICV recording.
- Full device integration between the BODYWORN® and ICV components, meaning multiple video sources (both BODYWORN® and ICV based feeds) are viewable, searchable, and exported simultaneously.
- Speed and signal boosting internet connectivity (wi-fi/cellular hotspot) for all vehicle computing devices, including the MDC.
- Sound and audio capture through the use of a dedicated BODYWORN® meant to service as an integrated microphone.
- Secondary, redundant cellular connectivity available only via Utility's integrated "IoT CUBE" - (IOTCUBE-H-4001).
- A complete network security appliance that provides secure access to the internet including VPN support.

BODYWORN® offers the following unique capabilities:

- A smart computer for high-definition body camera video recording, viewing, and classification directly on the device.
- For select devices, a patented uniform integrated mounting design that ensures discreet, secure mounting and stable video collection.
- Realtime policy and software updates – meaning a device never needs to be docked to receive

Docusign Envelope ID: 7174F7DC-64E2-4CED-9E06-E5830D367C06

recording policy changes and important updates to the device firmware.

- Two-way enhanced communications for receipt and transmission of:
  - Amber, Silver, Be on the Lookout ("BOLO") messages with suspect information and images
  - Automated video offload from the field via Wi-Fi and/or Cellular means, based on policy set priority
  - Potentially lifesaving "Officer Down" alerts, with the real-time location of a downed officer to alert resources in the vicinity, supervisors, command staff, dispatch, and other assigned users.
- Ability to activate video recording automatically during a physical altercation or when a sidearm is unholstered. This is the only automatic trigger on the market that initiates a recording when an officer deploys their duty firearm, while reporting to an AVL system to coordinate support resources.
- Live video streaming to dispatch or other authorized users.

COREFORCE DEMS offers the following unique capabilities:

- A data source agnostic digital evidence management system that optimizes investigative workflow, case management and data sharing. It supports camera registry, text or email based direct data request, and crowdsourcing of evidence.
- CJIS compliant, secure video evidence that is web accessible, requires no servers and installation disks to run, and remains updated.
- AVL software to monitor the location and health of all field assets, including Deputies and Vehicles, in an easy-to-use map-based interface.
- GPS, Geo-fence policy-based recording triggers to activate recordings at major public gatherings, sporting events, festivals, and during emergency situations like active shootings.
- Computer Aided Dispatch ("CAD") integration that triggers cameras upon entry to a geographic action zone, and imports CAD information directly into the responding officer's BODYWORN® and ICV video file.
- Automated smart redaction built directly into COREFORCE DEMS for ease of access and processing/sharing redacted videos.
- Smart holster technology activates the BODYWORN® video recording feature upon deployment of a firearm from its holster and can send an alert to dispatch as well as all other officers in a pre-defined radius.

Utility's CONNECT and BODYWORN® are the first and only policy-based recording devices that can be intelligently activated based upon the industry's largest suite of customizable recording triggers and updated over the air as recording policies evolve.

This Letter documents that Utility is the sole entity with authority, access, and ability to provide the complete, integrated system comprised of the BODYWORN®, CONNECT and COREFORCE DEMS products and associated services. Additionally, the system includes various patented features and functionalities only offered by Utility.

List of current U.S. Patents owned by Utility that may be incorporated into the system:

TERMS & CONDITIONS

Tax is estimated based on rates applicable at date of quote and subject to change at time of invoicing. If a tax exemption certificate should be applied, please submit prior to invoicing.

STANDARD TERMS AND CONDITIONS

Axon Master Services and Purchasing Agreement:

This Quote is limited to and conditional upon your acceptance of the provisions set forth herein and Axon's Master Services and Purchasing Agreement (posted at https://www.axon.com/sales-terms-and-conditions), as well as the attached Statement of Work (SOW) for Axon Fleet and/or Axon Interview Room purchase, if applicable. In the event you and Axon have entered into a prior agreement to govern all future purchases, that agreement shall govern to the extent it includes the products and services being purchased and does not conflict with the Axon Customer Experience Improvement Program Appendix as described below.

ACEIP:

The Axon Customer Experience Improvement Program Appendix, which includes the sharing of de-identified segments of Agency Content with Axon to develop new products and improve your product experience (posted at www.axon.com/legal/sales-terms-and-conditions), is incorporated herein by reference. By signing below, you agree to the terms of the Axon Customer Experience Improvement Program.

Acceptance of Terms:

Any purchase order issued in response to this Quote is subject solely to the above referenced terms and conditions. By signing below, you represent that you are lawfully able to enter into contracts. If you are signing on behalf of an entity (including but not limited to the company, municipality, or government agency for whom you work), you represent to Axon that you have legal authority to bind that entity. If you do not have this authority, please do not sign this Quote.

EXCEPTIONS TO STANDARD TERMS AND CONDITIONS

Agency has existing contract(s) originated via Quote(s):

Rewritten Quotes --->>> Q-372440, Q-653950.

Agency is terminating those contracts effective 12/1/2026. Any changes in this date will result in modification of the program value which may result in additional fees or credits due to or from Axon.

Transfer Balance --->>> The parties agree that Axon is applying a Transfer Balance of $5,168.54

Rewrite Estimates

Estimated Amounts and Contract Terminations. Any amounts stated as due under existing or terminated contracts — including contract transfer balances carried forward to new or pending contracts — are estimates based on payments received as of the calculation date. These estimates may be adjusted if new contracts are not executed on the anticipated dates or if expected payments are not made.

Refresh Shipment Timing

Technology Assurance Plan (TAP) Refresh Prior to Renewal. For Customers with expiring agreements that include TAP refresh rights, Axon may, in its discretion, ship refresh hardware under the existing contract while renewal or replacement agreements are in progress. Any such shipments will be deemed made under the terms of the existing contract until the new contract is fully executed, after which any applicable updates, fees, or adjustments will apply.

Shipment Timing

Shipment Variance . Estimated shipment dates are provided for planning purposes only and are not guarantees. Axon may ship hardware before or after the estimated shipment date, and failure to meet an estimated shipment date will not, by itself, constitute a breach, provided Axon uses commercially reasonable efforts to meet estimated shipment dates.
